

ULTRA XTREME

CONCENTRATED VIRUCIDAL/ BACTERICIDAL DISINFECTANT

- Multi purpose surface disinfectant.
- Effective against Coronavirus, Norovirus and Poxviridae (Including Monkey pox virus).
- Kills 99.999% of bacteria.
- Helps to prevent the spread of pathogens.

USES

A proven virucidal, bactericidal/yeasticidal disinfectant which is suitable for use on all hard surfaces that are washable. Active against Coronavirus, Poliovirus Type 1, Adenovirus Type 5 and Murine Norovirus. Passes EN 14476:2013/FprA1 March 2015, EN 1276, EN 13697, EN 1650.

Ideal for disinfecting all water resistant surfaces, such as; glass, aluminium, stainless steel, rubber, ceramic, plastic and tiled surfaces.

General areas: Door handles, finger plates, communal equipment, tables, chairs, etc.

Care homes: All touch surfaces that are washable.

Kitchens: Work surfaces, fridges, chillers, microwaves, shelves, draining boards, sinks, etc.

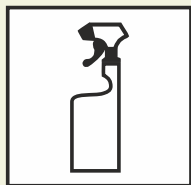

Food Industry: Conveyors, preparation surfaces, trolleys, shelves, equipment, etc.

Bars/restaurants: Tables, counters, bars, etc.

DIRECTIONS

If the area is dirty clean first before disinfection is carried out. Dilute the product according to the activity required and spray onto the surface.

For enveloped viruses including Coronavirus and Poxviridae, spray directly onto the surface and allow a 1 minute contact time, wipe away with clean cloth or paper towel.

For non-enveloped viruses including Norovirus, spray directly onto the surface and allow a 5 minute contact time, wipe away with clean cloth or paper towel.

For use in food contact situations rinse with clean water, for non-food contact areas wipe away with a clean cloth.

DILUTIONS

For activity against enveloped viruses dilute 1 part Ultra Xtreme with 9 parts water and apply to the area. After 1 minute wipe away with a clean cloth.

For activity against non-enveloped viruses dilute 1 part Ultra Xtreme with 9 parts water and apply to the area. After 5 minutes wipe away with a clean cloth.

For bactericidal/yeasticidal activity dilute the product 1:15 with water and apply to the area. Contact time 5 minutes. After 5 minutes wipe away with a clean cloth.

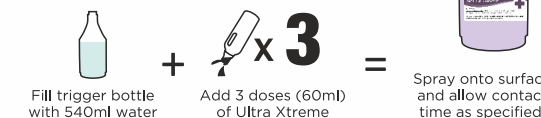

For other surfaces the product may be diluted 1:50 with water for effectiveness against bacteria only. After 1 minute contact time, wipe away with a clean cloth.

FOR VIRUCIDAL ACTIVITY

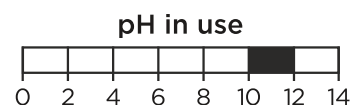

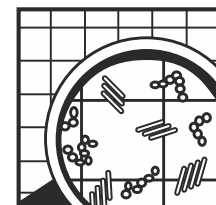

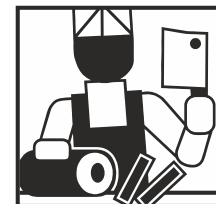

VIA PELICAN PUMP

VIA 1 LITRE DOSING BOTTLE

Spray onto surface and allow contact time as specified.
