

MIDA

LUFRAGERM PLUS

A perfume free concentrated cleaner & disinfectant suitable for use on all hard surfaces including the food industry.

DILUTION RATE

METHOD OF USE

CLEAN:
Use Mida Lufragerm Plus to clean the surface*.

Fill an empty trigger bottle with clean water.

Add 1 shot (30ml) of Mida Lufragerm Plus.

DISINFECT:
Cover the surface with diluted Mida Lufragerm Plus.

Allow 60 seconds contact time on the surface.

Wipe away with a clean cloth. For food preparation areas, rinse thoroughly with clean water. Leave the surface to air dry.

EFFICACY STANDARDS

BACTERICIDAL - EN 1276

CONTACT TIME	DILUTION	KILL RATE
60 Seconds	1 : 30	99.999%

ENVELOPED VIRUSES - EN 14476

CONTACT TIME	DILUTION	KILL RATE
60 Seconds	1 : 65	99.99%

All testing methods conducted in dirty conditions by an independent laboratory.

Use biocides safely. Always read the label and product information before use.

EN 14476 (MVA)	1:65 (1.5%)	Dirty	60 Seconds	99.99%

For combined activity against Bacteria and Yeast, dilute Mida Lufragerm Plus with clean water at 1:65 (1.5%) and allow a 5 minute contact time. For activity against enveloped viruses, allow 60 second contact time at 1:65 (1.5%).

INSTRUCTIONS FOR USE

Dilute the product as required.

Apply to the surface to be sanitised and wait for the required contact time. Agitate if necessary and wipe away with a clean cloth, mop or paper towel*. For dirty areas, clean first with a solution of Mida Lufragerm Plus.

* For food contact surfaces, rinse thoroughly with clean water.

N.B. Do not mix with other chemicals or cleaners. When using Mida Lufragerm Plus in machines, a defoamer may need to be added to the water collection tank.

Use biocides safely. Always read the label and product information before use.
