

LAUNDRY BOOST

ALKALINE BOOSTING AGENT

- *Super-concentrated additive*
- *Enhances system performance*
- *Effective against severe soilage*

CLOVER 
CHEMICALS LTD
'Effective Cleaning Chemicals'
www.cloverchemicals.com

USES

A clear, concentrated liquid alkaline boosting agent.

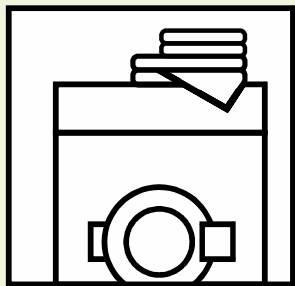

Increases the level of alkalinity in the wash to further activate Clover Laundry Detergent and Laundry Destainer during the wash process.
Enhances the performance of the laundry system against severe and stubborn soiling.

Removes severe soilage like blood and urine and baked in dirt from alkaline resistant fabrics.

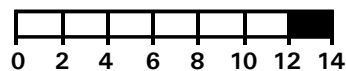

DIRECTIONS

Only apply Laundry Boost via automatic dosing equipment. Use a solution of Laundry Boost at 0.1% - 0.2% as a percentage of the overall liquid wash capacity.

N.B. Always rinse thoroughly after use. Do not over apply.
