

STEELBRITE

STAINLESS STEEL CLEANER AND DESCALER

- Removes water stains and scale
- Odourless and non tainting ideal for the food industry
- Suitable for use in foam generating equipment

USES

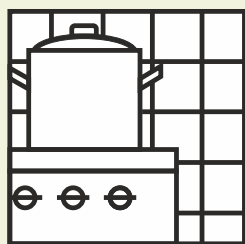

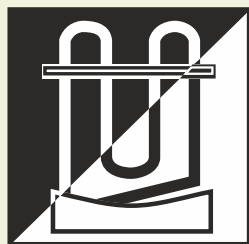

A highly concentrated odourless acidic cleaner designed to remove severe water stains and scale form steel plant and equipment.

Steel Brite is suitable for cleaning and descaling in food manufacturing. Its thick formula is specially designed for ease of use.

DIRECTIONS

Use undiluted or pre-dilute with water according to the level of scale present. Always allow extra concentration for highly textured surfaces. Apply via a brush, a cloth or suitable foam generation equipment, agitate if required and rinse thoroughly until all visible foam is removed.

N.B. Always test a small area of surface, with your cleaning solution to check surface compatibility.

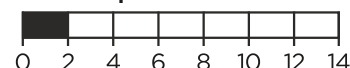

DILUTIONS

STEELBRITE : WATER			
Heavy Scale Undiluted	Medium Scale 1:10	Heavy water stains 1:40	Light water stains 1:80
